DETAILED ACTION

1. This is in response to amendment filed on October 29, 2008 and RCE filed November 20, 2008. Independent claim 49 has been amended. Claims 1-48, 50-53 and 60-81 have been cancelled. Claims 82-86 are newly added. Claims 49, 54-59 and 82-86 are pending in this application.

Response to Arguments

2. Applicant's arguments regarding "a request to process a query at a second computer system, the request to process the query comprising a first object data and metadata about the first object data and to generate a result based solely on the first object data and metadata within the request" with respect to 49, 54-59 and 82-86 have been fully considered and are persuasive. The rejection of the claims has been withdrawn.

Allowable Subject Matter

3. Claims 49, 54-59 and 82-86 are allowed over the prior art of record.

4. The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1, 85 and 86, the prior art fails to disclose or suggest the claimed provision "a request to process a query at a second computer system, the request to process the query comprising a first object data and metadata about the first object data and to generate a result based solely on the first object data and metadata within the request" as claimed in conjunction with remaining claims provisions.

5. The dependent claims, being further limiting to the independent claims, definite and enabled by the Specification are also allowed.

Comments

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Other Prior Art Made of Record

7. 1. O'Brien et al. (US 6,351,776 B1) disclose shared internet storage resource, user interface system and method.

2. Manley et al. (US 7,043,485 B2) disclose system and method for storage of snapshot metadata in a remote file.

3. Ballard et al. (US 7,111,243 B1) disclose customization of tab-order functionality in internet applications.

4. Sherwood et al. (US 7,379,965 B2) disclose system and method for searching data partially displayed on a user interface.

Conclusion

8. The prior art made of record and not relied upon is considered pertinent to Applicant's disclosure.
